Professional Summary

QA Engineer with around 3 years of experience in Software Testing, including 2 years of hands-on experience in Automation Testing using Selenium WebDriver with C# and 1 year of experience in Manual Testing. Hands on experience in Functional, Regression, ETL, Database, and API Testing, along with defect tracking using JIRA. Experienced in designing, executing, and maintaining automation test scripts along with manual testing activities. Good understanding of Agile methodology, SDLC, and STLC.

Technical Skills

- **Testing:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, System Integration Testing, Exploratory Testing, UAT, Database Testing, API Testing, ETL Testing
- **Automation:** Selenium WebDriver (C#), TestNG, Cucumber BDD(Basic), Data-Driven Testing (Basic), Automation script development, execution and maintenance
- **Framework:** Page Object Model POM
- **Tools:** JIRA, Postman, Git, Query Surge, Eclipse, Microsoft Visual Studio, VS Code, MySQL Workbench
- **Programming Languages:** C#, Core Java, SQL
- **Database:** MySQL, Oracle
- **Methodologies:** Agile (Scrum), STLC, SDLC

Professional Experience

Mphasis Ltd —QA Test Engineer

Hyderabad

Client: Fidelity & Guaranty Life Insurance (FGL)

Project: FGL Quality Assurance

September 2024 – Present

- Analyzed the business requirements and prepared test scenarios and test cases based on acceptance criteria.
- Performed **functional, regression, smoke** and **end-to-end testing** of web application.
- Conducted backend data validation using **SQL** queries to ensure data consistency between UI and database.
- Performed **API testing** using **Postman** by validating request and response, status codes and JSON data.
- Logged, tracked and managed defects using **JIRA** with proper severity and priority classification.
- Performed re-testing and **regression testing** after defect fixes.
- Collaborated with developers and business analysts to analyze defects and ensure faster resolution.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.
- Developed and executed automation test scripts using **Selenium WebDriver with C#** for regression testing.
- Maintained and updated automation scripts based on application changes.
- Assisted in execution of automated test suites and analyzed results.
- Read test data from Excel using **Apache POI** for **data-driven** testing approach.
- Worked on automation testing activities alongside manual testing across multiple sprints.
- Ensured quality deliverables within sprint timelines.

Project: FGL Steady State

September 2023 –August 2024

- Utilized Informatica Data Quality tool to perform data quality testing and job monitoring.
- Executed ETL workflows using **Informatica** and ensured successful data processing.
- Validated source to target data mappings using **SQL** queries.

- Conducted data quality checks such as **completeness, accuracy, consistency** and **uniqueness**.
- Performed record count and data validation between source and target systems.
- Generated data quality reports in scorecards using **Analyst** tool.

Education

- | | |
|--|---|
| • Vellore Institute of Technology, Amaravati, Andhra Pradesh
Electronics and Communication Engineering | July 2018 - May 2022
CGPA: 8.39/10 |
| • Government Junior College, Vizianagaram
MPC | July 2016 - May 2018
Percentage:96.8 |

Certifications

- Certified ETL Tester-Query Surge (July 2025).
- Query Surge Certified Practitioner-Query Surge (July 2025).
- Agile Testing S1-Talent Next (October 2025).
- Selenium S1-Talent Next (September 2025).
- Playwright with C#-Udemy (October 2025).
